AI Trainer | Broadcast Engineer | Python Developer | Former Para Commando

PROFESSIONAL SUMMARY:

Strategic technical professional with over 20 years of experience in broadcast engineering, IT operations, Python automation, and AI training across Bangladesh, Taiwan, and Afghanistan. Currently an AI Trainer for Google Gemini (P13N Personalization V.2) through Invisible Technologies, evaluating AI-generated responses for accuracy, naturalness, and cultural relevance. Former Bangladesh Army Para Commando with a proven ability to remain calm, disciplined, and effective under extreme pressure. Author of the memoir "The Commando in the Shack," recounting survival of 13-day Taliban captivity in 2014. Verified language proficiency in Bengali (Native), English (Professional), and Hindi (Conversational). Open to remote contract work in AI training, technical operations, and language-focused projects.

TECHNICAL SKILLS:

Category	Skills
AI & Data	AI Training (RLHF), Data Annotation, Benchmark Evaluation, Content Labelling, Fact-Checking, Prompt Engineering
Programming & Scripting	Python, HTML, Bash, Shell Scripting
Python Libraries	pandas, openpyxl, pathlib, subprocess, logging, re (regex)
Broadcast Control	AVECO, Harris ADC, Imagine D-Series / Selenio
Systems & IT	Linux (Ubuntu/CentOS), Windows Server, macOS, Networking (TCP/IP)
Media & Utilities	OBS Studio, FFmpeg
Development Tools	Git, GitHub, VS Code, PyCharm
Microsoft Office	Excel (Pivot Tables, Formulas, Data Cleaning), Word (Formatting, Styles), PowerPoint (Presentations), Access (Queries, Reports)
Collaboration Tools	Slack, Hubstaff, Jira, Google Workspace, RWS Workzone

WORK EXPERIENCE

AI TRAINER (RLHF) — BENGALI LANGUAGE SPECIALIST

Invisible Technologies / Google — Remote | May 2026 – Present

- Evaluate AI-generated Bengali responses against strict standards: factual accuracy, cultural naturalness, completeness, and tone.
- Write structured English justifications for each evaluation.
- Provide human feedback through Reinforcement Learning from Human Feedback (RLHF) to train the Google Gemini AI model.
- Follow detailed rubrics and maintain high accuracy over extended periods.

SENIOR EXECUTIVE, INGEST – BROADCAST ENGINEERING OPERATIONS & IT

Nagorik Television — Dhaka, Bangladesh | April 2017 – August 2024

- Oversaw core broadcast control systems (Imagine Automation), achieving 99.9% on-air availability for a 24/7 national news channel.

- Designed and deployed Python-based automation solutions for content scheduling and system health checks, reducing manual intervention by 70%.
- Authored comprehensive technical documentation for system protocols and troubleshooting guides.
- Implemented data logging and system analytics for proactive monitoring and predictive maintenance.

EXECUTIVE TECHNICAL OPERATIONS (AUTOMATION & ACCESSORIES TESTING UNIT)
JU-SOFT Co. Ltd. — New Taipei City, Taiwan | *October 2015 – February 2017*

- Led testing and validation of broadcast automation hardware for international export markets.
- Developed standardized testing procedures, validation protocols, and inspection checklists.
- Collaborated with engineering and QA teams on root-cause analysis and corrective actions.

HEAD OF BROADCAST & TECHNICAL OPERATIONS
1TV Media — Kabul, Afghanistan | *October 2013 – April 2014*

- Directed full technical operations for a 24/7 broadcast facility in a high-pressure, conflict-zone environment.
- Trained and mentored technical staff, reducing on-air errors by 20%.
- Managed daily operations during active conflict period in Kabul.

SENIOR EXECUTIVE – BROADCAST ENGINEERING & OPERATIONS
Boishakhi Media Ltd. — Dhaka, Bangladesh | *January 2010 – September 2015*

- Managed end-to-end broadcast playout workflow using Harris automation systems.
- Developed automation scripts for content ingest and scheduling, improving efficiency by 30%.

SENIOR EXECUTIVE, INGEST & MCR – BROADCAST ENGINEERING & OPERATIONS
Diganta Media Ltd. — Dhaka, Bangladesh | *January 2008 – December 2009*

- Managed AVECO control systems and developed workflow automation solutions for error-free playout.

EXECUTIVE, INGEST – BROADCAST ENGINEERING & OPERATIONS
Bangla Vision — Dhaka, Bangladesh | *September 2005 – December 2007*

- Operated AVECO broadcast control systems. Developed initial Python automation for file management.

SYSTEM ENGINEER & COMMUNICATIONS ROLES
Speed Technology & Engineering Ltd. / BRAC — Dhaka, Bangladesh | 2000 – 2005

- Gained foundational experience in IT systems support and corporate communications.

PROJECTS

Project	Description	Outcome
Google Gemini P13N Personalization	AI training and evaluation for Bengali language model.	Ongoing — RLHF feedback for Google Gemini.
Python Broadcast Automation	Automated server monitoring, content scheduling, and health checks.	70% reduction in downtime.
FIFA World Cup 2018 Broadcast	Managed live multi-venue broadcast operations.	Flawless coverage. Management commendation.
Multi-Channel Automation Integration (2005–2015)	Integrated AVECO, Harris, and Imagine systems across 3 TV channels.	Error-free 24/7 transmission.

EDUCATION

Degree	Institution	Year
Higher Diploma in Computer Science & Engineering	NYTA (BTEB), Dhaka	2005
Master of Social Science (MSS)	National University of Bangladesh	2000

CERTIFICATIONS

Certification	Institution	Year
100 Days of Code: Python Pro Bootcamp	Udemy	2024
Python Scripting for System Administrators	Coursera	2024
Broadcast Engineering & Automation	NIMC, Dhaka	2010
Communication Training	BRAC	2000

LANGUAGES

Language	RWS TrainAI	Hallo (Meridial)	Final Level
Bengali	30/35 (Proficient)	C2 (Mastery)	C2 — Native Mastery
English	27/35 (Independent)	C1 (Advanced)	C1 — Advanced Professional

PUBLICATIONS & RECOGNITION

Item	Detail
Memoir	"The Commando in the Shack" — 70,000-word narrative non-fiction. Under review by 11 literary agents. Pitched to BBC Storyville and Al Jazeera Witness.
Media Coverage	Cover story, <i>Saptahik</i> magazine (May 2018). Featured in <i>Jago News</i> .
Advocacy	Supported by Hostages International (UK) . Contributor to " <i>Tastes of Freedom</i> " recipe book (forthcoming, 2027).
Language Credentials	Bengali and English proficiency verified by RWS TrainAI (Bengali: 30/35 Proficient User; English: 27/35 Independent User) and Hallo Assessment for Meridial Marketplace / Invisible Technologies (Bengali: C2 Mastery; English: C1 Advanced).

MILITARY SERVICE

Bangladesh Army — Para Commando *1989 – 1999* 10 years of service. Completed elite Para Commando training. - Specialized in explosives handling, field engineering, wireless communications, and survival tactics. - Served in UN peacekeeping missions. Awarded multiple commendations.
